

Client Authorization Instructions

Confirmation helps those working with you or on your behalf to quickly and easily verify your financial data. But before they can do that, they need your authorization. Our platform makes this process quick and easy for you, too, with no papers to mail, fax, or scan. Here's how it works.

Providing Authorization

1 Receive Email Request

You will receive a system-generated email from Systems.Administrator@confirmation.com with a secure link to provide your signature.

2 Provide Digital Signature

Preferred: Click the **Sign Authorization** button, which will direct you to a unique authorization page to provide your signature using a mouse, a trackpad, or a finger/stylus on touchscreen devices.

For instructions on how to upload an image file of your signature, see next page.

3 Complete Client Authorization Process

Select the **save** button to complete the client authorization process, allowing the creditor to initiate commercial credit inquiries to your financial institution on your behalf.

Please do not reply to this email.

Your electronic authorization is required

Mary Smith,

Meagan Jenkins at Houser CPA Group requires an electronic signature to provide authorization to complete your financial statement audit.

This authorization allows Houser CPA Group to request information deemed relevant to the completion of your financial statement audit. **Without this authorization, Houser CPA Group cannot request or obtain information from third parties on your behalf using Confirmation.** You have 90 days to provide your authorization. [Read about our User Agreement here.](#)

Uploading a Signature

If you have an image file of your signature, you can upload the file instead.

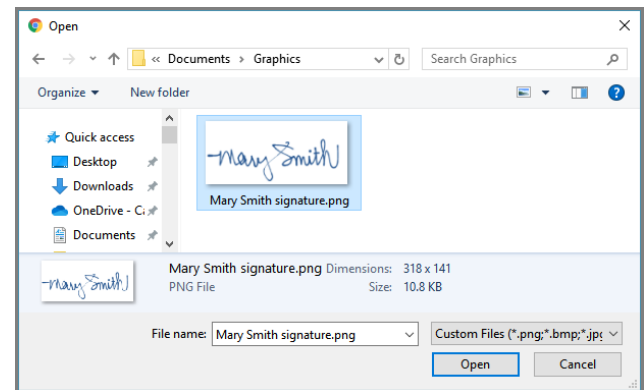

1 Upload Method

Click the **Upload** link above the signature box.

2 Locate and Upload File

Click the **Browse/Upload** button to locate the image file on your computer. Select the file and click **Open**.

The screenshot shows the CONFIRMATION Client Authorization page. At the top, there's a header with the CONFIRMATION logo and contact information. Below that, a dropdown menu for 'Select a country to provide authorization' is set to 'United States (US)'. A 'next' button is visible. The 'Client Authorization' section contains a paragraph of text. Under 'Select Signature Type*', there are three tabs: 'Sign', 'Upload', and 'Type'. The 'Upload' tab is selected and highlighted with a red box. Below the tabs is a large empty box for the signature. At the bottom left of this box is a 'browse/upload' button, also highlighted with a red box. At the bottom right of the box is a 'clear' link. Below the signature box are three buttons: 'back', 'cancel', and 'save'. At the very bottom, there are three sections: 'Client Contact' (Mary Smith), 'Client Company' (J. Viking Corp.), and 'Requestor' (Houser CPA Group).

3 Complete Client Authorization Process

The signature populates in the box. Select the **save** button to complete the client authorization process, allowing the auditor to initiate confirmation requests or the creditor to initiate commercial credit inquiries to your financial institution on your behalf.

The screenshot shows the CONFIRMATION Client Authorization page, similar to the first one, but now the signature 'Mary Smith' is populated in the signature box. The 'browse/upload' button is still visible at the bottom left of the box. The 'back', 'cancel', and 'save' buttons are at the bottom right. The rest of the page content remains the same.
